Unsere Firmenphilosophie

Für alle verpflichtend:
Der Kunde steht im Mittelpunkt

- ★ Der Kunde ist die wichtigste Person für unser Unternehmen, egal ob er anwesend ist, ob er schreibt oder anruft.
- ★ Er ist nicht von uns abhängig, sondern wir von ihm.
- ★ Er stört uns nicht bei der Arbeit, sondern ist in Sinn und Zweck ihr Inhalt.
- ★ Er ist kein Fremder, sondern ein lebender Bestandteil unseres Geschäfts. Wenn wir seine Wünsche erfüllen, tun wir ihm keinen Gefallen. Er tut uns einen Gefallen, wenn er sich seine Wünsche durch uns erfüllen läßt.
- ★ Er ist keine Nummer, sondern ein Mensch aus Fleisch und Blut. Mit Eigenschaften und Stimmungen, wie auch wir sie haben.
- ★ Er kommt nicht zu uns, um Streitgespräche zu führen oder seine Intelligenz messen zu lassen. Aber er hat das Recht, seine Meinung zu äußern.
- ★ Er legt uns sein Wünsche vor. Unsere Aufgabe ist es, diese Wünsche sowohl für ihn als auch für uns gewinnbringend zu erfüllen.

Our Company Philosophy

Our obligations:
The customer is the our first priority

- ★ *The customer is the most important person for our company, whether he is present, writes or calls.*
- ★ *He is not dependent on us - we depend on him.*
- ★ *He does not interrupt our work, but is the reason and purpose of it.*
- ★ *He is not a stranger, but a living part of our business. If we comlpy with his requests, we are not doing him a favour. He is doing us a favour in letting us fullfil his wishes.*
- ★ *He is not just a number, but a person with characteristics and moods, just like us.*
- ★ *He doesn't come to us to argue or to partake in a combat of intelligence. However, he has the right to voice his opinion.*
- ★ *He presents his case and requirements. It is our job to fullfil his requirements profitably - for him and for us.*

Filosofia della nostra impresa

Vale per tutti:
Il cliente é al centro della nostra attenzione

- ★ Il cliente é la persona piú importante per la nostra azienda - che sia presente, che tefefoni o che scriva.
- ★ Il cliente non dipende da noi, ma noi dal nostro cliente.
- ★ Il cliente non ci disturba durante il nostro lavoro, ma lui é l'obiettivo e la ragione per il nostro lavoro.
- ★ Il cliente non é un estraneo, ma un componente vivo dei nostri affari. Se noi soddisfacciamo i suoi desideri, non gli facciamo un favore. Lui fa un favore a noi, se ci permette di soddifare le sue esigenze.
- ★ Il cliente non é un numero, ma un essere umano fatto di carne e sangue. Ha delle caratteristiche ed umori come l'abbiamo anche noi.
- ★ Il cliente non viene da noi per fare dibattiti o per misurare la sua intelligenza. Peró lui ha il diritto di esprimere la sua opinione.
- ★ Il cliente ci sottopone le sue esigenze. È il nostro obbligo di soddifare queste esigenze in modo fruttuoso per ambedue le parti.

Nuestra filosofia de empresa

Válido para todos:
El cliente: nuestro centro de atencion

- ★ *El cliente es la persona más importante para nuestra empresa, sea por teléfono, por correspondencia o personalmente.*
- ★ *Él no depende de nosotros, sino que somos nosotros los que dependemos de él.*
- ★ *No nos molesta en nuestro trabajo, sino que es el sentido y la finalidad de éste.*
- ★ *Él no es ningún extraniero, sino un componente vivo de nuestro negocio. Cuando cumplimos sus deseos no le estamos haciendo ningún favor. Él nos hace un favor cuando nos deja ser los que cumplamos sus deseos.*
- ★ *El cliente no es ningún número. Es una person de carne y hueso. Con cualidades y estados de ánimo, como nosotros también tenemos.*
- ★ *Él no se dirige a nosotros para mantener discusiones o medir su in teligencia. Pero, tiene todo el derecho a darnos su opinión.*
- ★ *Nuestro cliente nos muestra sus deseos. Nuestra tarea es cuplir éstos de forma provechosa tanto para él como para nosotros.*

Es gibt kaum etwas auf dieser Welt, das nicht irgend jemand ein wenig schlechter machen und etwas billiger verkaufen könnte, und die Menschen, die sich nur am Preis orientieren, werden die gerechte Beute solcher Machenschaften.
Es ist unklug, zu viel zu bezahlen, aber es ist noch schlechter, zu wenig zu bezahlen. Wenn Sie zu viel bezahlen, verlieren Sie etwas Geld, das ist alles. Wenn Sie dagegen zu wenig bezahlen, verlieren Sie manchmal alles, da der gekaufte Gegenstand die ihm zugedachte Aufgabe nicht erfüllen kann.
Das Gesetz der Wirtschaft verbietet es, für wenig Geld viel Wert zu erhalten. Nehmen Sie das niedrigste Angebot an, müssen Sie für das Risiko, das Sie eingehen, etwas hinzurechnen. Und wenn Sie das tun, dann haben Sie auch genug Geld, um für etwas Besseres zu bezahlen.

John Ruskin
engl. Sozialreformer (1819-1900)

There is nothing in this World, that someone cannot make in a lesser form to enable it to be sold for less, and thus, people who orientate themselves solely by price, are worthy victims of this phenomenon.
It is unwise, to pay too much, but it is even worse to pay too little. If you pay too much, you loose a little money, that is all. If you pay too little, you sometimes loose everything, as the purchased item does not fulfill the purpose it was originally purchased for.
The law of economics forbids us to obtain high value for a low price. If you accept the lowest offer, you have to accept the risk that you may have to pay more. Should you accept this risk, then you certainly have enough money to purchase something better to begin with.

John Ruskin
engl. social reformer (1819-1900)

Non esiste cosa a questo mondo che non possa essere offerta in qualità inferiore e che possa essere venduta ad un prezzo più conveniente. Le persone, che si orientano solo secondo il prezzo, diventano la giusta preda di queste macchinazioni.
Non è intelligente, pagare troppo, ma è ancora peggio pagare troppo poco. Quando pagate troppo, perdete un po' di denaro, questo è tutto. Quando al contrario pagate troppo poco perdete talvolta tutto, perchè l'oggetto comprato non soddisfa i fini per cui era stato concepito.
Le leggi dell'economia proibiscono di ottenere molto valore in cambio di poco denaro. Quando scegliete l'offerta più bassa, dovete calcolare sempre qualcosa in più per il rischio a cui andate incontro.
E, se fate questo, allora avete abbastanza denaro per pagare qualcosa di miglior qualità.

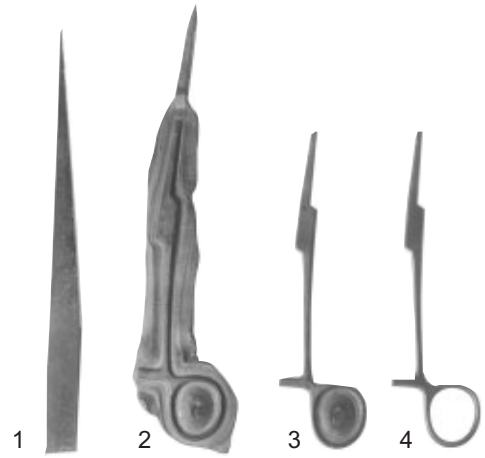

John Ruskin
Riformatore Sociale ingl. (1819-1900)

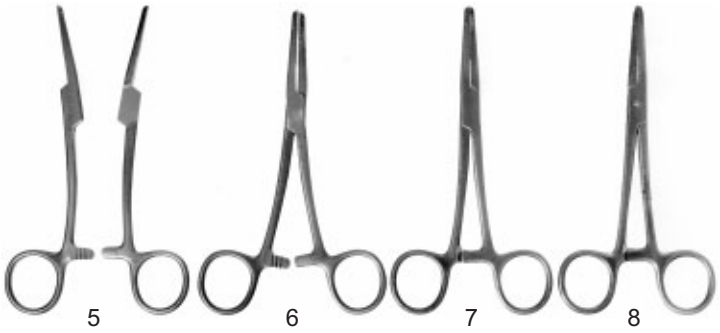

Non existe apenas ninguna cosa en este mundo que no se pueda ofrecer en calidad inferior y que no se pueda vender a un precio más conveniente. Las personas que sólamente se orientan por el precio, serán la justa presa de estas maquinaciones.
No es inteligente pagar demasiado, pero es aún peor pagar demasiado poco. Cuando pagáis demasiado, perdéis un poco de dinero, esto es todo. Cuando al contrario pagáis demasiado poco, perdéis a veces todo, porque el objeto comprado no puede satisfacer el fin para el cual era destinado.
La ley de la economía prohíbe obtener mucho valor al cambio de poco dinero. Si aceptáis la oferta más baja, siempre teneis que calcular un poco más alto para cubrir el riesgo que enfrontáis.
Y si actuáis de esta manera, entoces tenéis bastante dinero para pagar una cosa de mejor calidas.

Fachbegriffe einer Arterienklemme
Tecnical description for artery forceps
Descrizione tecnica di una pinza emostatica
Descrición técnica de una pinza hemostática

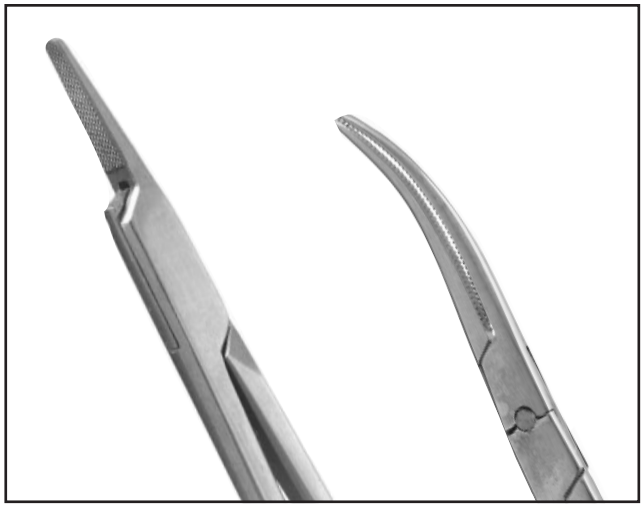

Fabrikneue chirurgische Instrumente sind vor der ersten Sterilisation zu reinigen.
Arterienklemmen müssen im geöffnetem Zustand gereinigt werden.
Vor dem Sterilisieren, d.h. beim Zusammenstellen der Operationssiebe sollte die die Rastensperre nur im ersten Zahn geschlossen werden, dadurch wird vermieden, daß die Instrumente während der Sterilisation (Temperaturerhöhung auf 134°C) unter Spannung stehen und Spannungsrisse im Schluß auftreten.
Das Zureichen während der OP wird erleichtert.
Sterilisation ist kein Ersatz für Sauberkeit!

Brand new surgical instruments should be cleaned before they are sterilized.
Haemostatic forceps should be open at the jaw end when they are cleaned.
Before the instruments are put into the sterilization tray, the ratchet should be fixed into the first notch. This is done to prevent tension or even tension cracks in the joint area during sterilization (temperatures of up to 134°C).
Serving the instruments during the operation is made easier.
Sterilization does not replacement cleanliness!

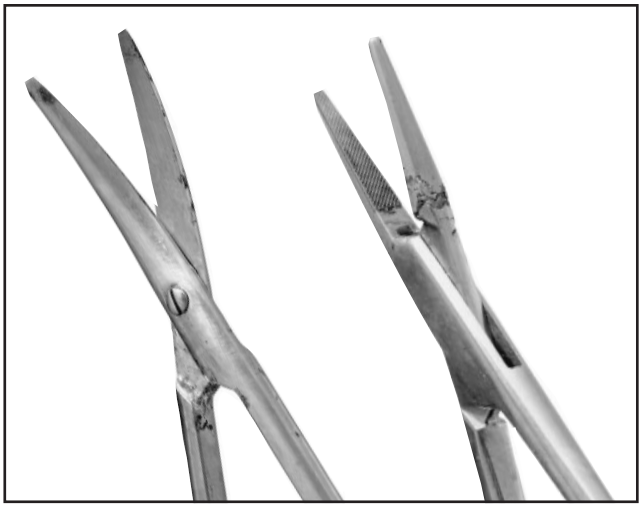

Nuovi strumenti chirurgici, primo della prima sterilizzazione debbono essere lavati.
Le pinze emostatiche debbono essere pulite in posizione aperta.
Prima della sterilizzazione, quindi durante la composizione dei set operativi, la cremagliera delle pinze emostatiche dovrebbe essere chiusa solo nel primo scatto. Cosí, si evita che gli strumenti siano sotto pressione durante la sterilizzazione (aumento di temperatura fino a 134°C) e ció potrebbe infatti causare delle screpolature di tensione sull'incastro dello strumento.
Durante l'intervento, il passaggio degli strumenti al chirurgo é piu facile.
La sterilizzazione non sostituisce la pulizia!

Los instrumentos quirúrgicos nuevos deben ser limpiados antes de la primera esterilización.
Las pinzas hemostáticas deben ser limpiadas estando abiertas.
Antes de la esterilización, es decir al colocar juntos los tamices de operación, se debe colocar la muesca de retención en el primer diente, para eviar que durante la esterilización los instrumentos (elevación de la temperatura a 134°C) estén bajo tensión y se presenten rajaduras.
El pasar los instrumentos durante la operación es facilitado.
La esterilización no es substituto de la limpieza!

C = carbide T = tungsten C = carburo T = tungsteno

Tungsten oder Wolfram ist ein metallisches Element, welches im Jahre 1783 durch den schwedischen Chemiker Karl Wilhelm Scheele endeckt wurde.
Elementsymbol = W, Ordnungszahl = 74, Atomgewicht = 183,86, Schmelzpunkt liegt bei ca. 3380°C, also höher als bei allen anderen bekannten Metallen, der Siedepunkt liegt bei 5500°C.
In Legierung mit metallischen Carbiden liegt die Härte annähernd beim Diamanten.
Tungsten Carbide ist das härteste von menschenhand geschaffene Metall.

Tungston or Wolfram is a metal element that was discovered in 1783 by the Swedish chemist Karl Wilhelm Scheele.
Element symbol = W, Ident. Number = 74, Atom weight = 183,86. Melting point is approx. 3380°C, (higher than all other know metals), boiling point is 5500°C.
When combined as an alloy with metal carbides, it achieves nearly diamond hardness.
Tungsten Carbide is the hardes man-made material.

Tungsteno o Wolfram é un elemento metallico, che fu scoperto nell’anno 1783 dal Chimico svedese Karl Wilhelm Scheele.
Simbolo d’elemento = W, numero ordinale = 74, peso atomico = 183,86, il punto di fusione si trova a ca. 3380°C, quindi piú alto di tutti gli altri metalli conosciuti, il punto d’ebolizione si trova a 5500°C.
Il tungsteno in lega con il carburo raggiunge un grado di durezza vicino a quello del diamante.
Carburo di tungsteno é la lega di metallo piú dura fino ad ora sviluppata da mani umane.

Tungsteno o Wolfram es un elemento metálico, que fue descubierto en el ano 1783 por el químico sueco Karl Wilhelm Scheele.
Símbolo del elemento = W, número ordinal = 74, peso atómico 183,86, el punto de fusión es aproximádamente de 3380°C, es decir mas alto que él de todos los metales conocidos, el punto de ebullición es aproximádamente 5500°C.
En aleación con carburos metálicos la dureza es parecida a la del diamente.
Carburo de tungsteno es el metal más duro creado por el hombre.

C = carbide T = tungsten **C = carburo T = tungsteno**

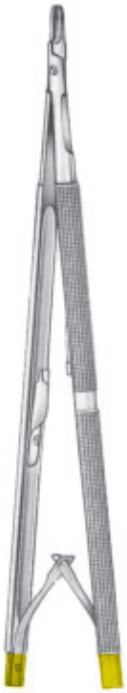

Tungsten oder Wolfram ist ein metallisches Element, welches im Jahre 1783 durch den schwedischen Chemiker Karl Wilhelm Scheele endeckt wurde.
Elementsymbol = W, Ordnungszahl = 74, Atomgewicht = 183,86, Schmelzpunkt liegt bei ca. 3380°C, also höher als bei allen anderen bekannten Metallen, der Siedepunkt liegt bei 5500°C.
In Legierung mit metallischen Carbiden liegt die Härte annähernd beim Diamanten.
Tungsten Carbide ist das härteste von menschenhand geschaffene Metall.

Tungsten or Wolfram is a metal element that was discovered in 1783 by the Swedish chemist Karl Wilhelm Scheele.
Element symbol = W, Ident. Number = 74, Atom weight = 183,86, Melting point is approx. 3380°C, (higher than all other know metals), boiling point is 5500°C.
When combined as an alloy with metal carbides, it achieves nearly diamond hardness.
Tungsten Carbide is the hardes man-made material.

Tungsteno o Wolfram é un elemento metallico, che fu scoperto nell’anno 1783 dal Chimico svedese Karl Wilhelm Scheele.
Simbolo d’elemento = W, numero ordinale = 74, peso atomico = 183,86, il punto di fusione si trova a ca. 3380°C, quindi piú alto di tutti gli altri metalli conosciuti, il punto d’ebolizione si trova a 5500°C.
Il tungsteno in lega con il carburo raggiunge un grado di durezza vicino a quello del diamante.
Carburo di tungsteno é la lega di metallo piú dura fino ad ora sviluppata da mani umane.

Tungsteno o Wolfram es un elemento metálico, que fue descubierto en el ano 1783 por el químico sueco Karl Wilhelm Scheele.
Símbolo del elemento = W, número ordinal = 74, peso atómico 183,86, el punto de fusión es aproximádamente de 3380°C, es decir más alto que el de todos los metales conocidos, el punto de ebullición es aproximádamente 5500°C.
En aleación con carburos metálicos la dureza es parecida a la del diamente.
Carburo de tungsteno es el metal más duro creado por el hombre.
